IMPORTANT NEW BOOKS

for Junior College Administrators

Improving Transition from School to College

How Can School and College Best Cooperate?

By the Educational Records Bureau, with the editorial assistance of *Arthur E. Traxler* and *Agatha Townsend*. Prompted by wide concern about the inflexibility of college entrance requirements, this examination of current procedures with recommendations for more liberal practices, will be keenly considered by all college and secondary school administrators.

Higher Education Is Serious Business

A Study of University Business Management in Relation to Higher Education

By *Harry L. Wells*, Vice President and Business Manager, Northwestern University. A long-needed volume dealing with the business and management side of university affairs, designed for administrators in institutions both large and small, public and private. "A 'must' for educational business administrators . . . Definitely a 'should' for trustees, presidents, and academic administrators."—LLOYD MOREY, Comptroller, University of Illinois.

ECONOMICS: PRINCIPLES AND APPLICATIONS

By Dodd and Hasek
2nd Edition

ECONOMICS: PRINCIPLES AND APPLICATIONS has set a pattern that caused many instructors to say, "This is the first economics textbook I have ever found that students can read and understand." ECONOMICS: PRINCIPLES AND APPLICATIONS is a dynamic book. It is not just for the one bright boy or girl in your class, but for all students. Difficult topics are made easier to comprehend by adequate explanation, and well-chosen illustrations and examples. It presents the basic principles and applications but leaves to later courses the more advanced and highly technical analysis of economic problems.

Available with a workbook and tests.
